

HERNÁN SOBERÓN

FULL STACK DEVELOPER

PROFILE

I'm a very passionate developer, photographer and cooker lover, with great motivation to learn new skills or share the knowledge that has been offered to me through more than 15 years of experience, with a lot of willingness to work with great challenges, on different teams (always with the help of agile methods like Scrum, Jira, Kanban). Mostly remote work for different clients all over the world (USA, England, India and Colombia).
